

As part of our plans for continued growth we are looking to recruit an experienced customer focused external sales person, for our service department.

The ideal candidate will have an electromechanical background with a proven track record in sales, good communication skills at all levels, commercial awareness and be computer literate.

This position will have the responsibility of growing what is already a significant part of our business by selling a range of services including the in-house and on-site service / repair / maintenance of motors, geared motors and industrial gear units together with replacement new products where applicable.

The role also encompasses forwarding information to the relevant sales area as "new sales" leads arise.

Interested applicants for this position should forward their CV addressed for the attention of Mark Holmes our managing director:

Mr M Holmes
Managing Director
SEW-EURODRIVE LTD
Beckbridge Industrial Estate
